

ANNUAL INDEX, Vol. 9

| | | | |
|--|--------|---|----------------|
| A | | | |
| Al Hamilton Contracting Co., Leconte Mills, Clearfield County, Pa., July | 44 | Cumberland Valley Coal Corp., Corbin, Ky., February | 40 |
| Amax Coal Co., Leahy Mine, Campbell Hill, Perry County, Ill., May | 36 | D | |
| American Mining Congress | | Dents Run: Reclamation of an entire watershed, March | 54 |
| - '72 AMC Coal Show/Convention, The, April | 70 | Designing a primary coal sampler, May | 48 |
| - '72 Coal Show - the biggest ever! July | 52 | E | |
| - Convention phase of the '72 Coal Show, The, April | 72 | Efficient processing in a clean environment, June | 44 |
| - What you'll see at the '72 Coal Show, April | 75 | Electrical protection necessitates training, December | 50 |
| - Who you'll see at the '72 Coal Show, April | 74 | Elk Creek No. 19 mines two seams, September | 50 |
| B | | Energy - keystone for progress (Comment), April | 43 |
| Bagge, Carl E. | | F | |
| - Case for coal, The, July | 46 | Falcon Coal Co., Inc., Hazard, Breathitt County, Ky., April | |
| - Coal and Congress, January | 48 | Federale Mynboul General Mining Group, Optimum Colliery, Hendrina, eastern Transvaal, South Africa, April | 94 |
| - Solution to the energy crisis, A, August | 34 | 59th Annual Safety Congress meets in Chicago, January | 64 |
| Barnes, George W. | | First mining/minerals policy report, August | 47 |
| - Present status of the Canadian coal industry, February | 34 | First step, The (Comment), July | 24 |
| Boyer, Jr., James F. | | Flat top stripping in hill country, April | 86 |
| - Status of coal mine drainage control technology, January | 56 | Forecast | |
| British firm formulates unique fire-resistant underground sealant, February | 44 | - Year ahead 1972, The, January | 46 |
| Broken Hill Proprietary Co., Ltd., Burwood Colliery and John Darling Colliery, N.S.W., Australia, December | 41 | Fourteen units will mine 11,000 tpd, September | 42 |
| Burgess Mining & Construction Corp., Birmingham, Alabama, October | 50 | G | |
| Business as unusual (Comment), December | 24 | Growing problem: fine refuse handling, A, October | 41 |
| C | | H | |
| C&K Coal Co., Clarion County, Pa., May | 44 | Halvorsen, W. J. | |
| Capitol Fuels, Inc., Cabin Creek, W. Va., near Charleston, July | 50 | - Various ways to recover coal fines, October | 49 |
| Capitol Fuels' strip mine fruit orchard, July | 50 | Hanna Coal Co., Oak Park No. 7 Mine, near Cadiz in Harrison County, Ohio, August | 42 |
| Carrying coal's story to the public, November | 46 | Hargraves, A. J. | |
| Case for coal, The, July | 46 | - Shortwall mining with power supports, Part I, December | 41 |
| Change that image! (Comment), June | 30 | Heavy media plant prepares utility fuel, November | 38 |
| Charleston show attracts 7,000, November | 50 | Holz, Peter | |
| Charnbury, Dr. H. B. | | - South Africa's first surface coal mine, April | 94 |
| - Pennsylvania initiates training of mine machine operators, May | 53 | How to select a coal sampling system, March | 42 |
| - Six states now belong to Mining Compact, August | 48 | Huntington, Fred R. | |
| Clemens, James M. | | - Designing a primary coal sampler, May | 48 |
| - Efficient processing in a clean environment, June | 44 | - How to select a coal sampling system, March | 42 |
| - Heavy media plant prepares utility fuel, November | 38 | - Selecting sampler feeders & crushers, July | 55 |
| - Leahy Mine - Amax Coal's newest, May | 36 | - Selecting secondary & tertiary samplers, November | 42 |
| - Mining follows the quadrant plan, June | 40 | I | |
| - Monterey No. 1 - a modern mine, June | 38 | Illinois miners hold 79th annual meeting, January | 66 |
| - Shoemaker Mine reaches main reserves, November | 33 | Interim Compliance Panel | |
| - Simplified preparation of utility fuel, May | 40 | - Lower dust standard takes effect soon, September | 60 |
| - Training program ranks among the best, June | 47 | International Strata Control Conference | |
| Coal and Congress, January | 48 | - Meeting draws representatives of 22 countries, November | 52 |
| Coal: Key to the energy crisis, September | 54 | Ironman, Ralph | |
| Coal mine health & safety research, January | 60 | - Meeting draws representatives of 22 countries, November | 52 |
| Coal Mining Institute of America | | J | |
| - CMAA holds 85th annual meeting, February | 50 | Jig plant features twin circuits, September | 46 |
| Consolidation Coal Co., CO ₂ Acceptor Process Pilot Plant, Rapid City, S.D., October | 54 | K | |
| Consolidation Coal Co., Dents Run Watershed, Morgantown, W. Va., March | 54 | "Kelly Giant" rides again, The, March | 50 |
| Consolidation Coal Co., Ohio Valley Div., Shoemaker Mine, Benwood, W. Va., November | 33, 38 | Kentucky producer uses mobile equipment to remove overburden, February | 52 |
| Coping with respirable dust, December | 47 | King Knob Coal Co., Elk Creek No. 19 Mine, Arnolds Run on Rt. 57, Barbour Co., W. Va., September | 50 |
| Cornforth, Carol L. | | Kingery, D. S. | |
| - Electrical protection necessitates training, December | 50 | - Water gauge, anemometer & tape, June | 54 |
| - Treated waste water solids fertilize strip-mined land, March | 36 | Krause, Rodney R. | |
| | | - Recovery of mined land, January | 51 |
| | | L | |
| | | Leahy Mine - Amax Coal's newest, May | 36 |
| | | Levene, Harold D. | |
| | | - Progress report on coal gasification, A, August | 38 |
| | | - Rocky Mt. meeting draws record crowd, September | 57 |
| | | Lower dust standard takes effect soon, September | 60 |
| | | M | |
| | | Martin, C. H. | |
| | | - Shortwall mining with power supports, Part I, December | 41 |
| | | Mason, Richard H. | |
| | | - Twofold attack on the drainage problem, October | 44 |
| | | McCarthy, D. F. | |
| | | - Raise boring techniques, March | 46 |
| | | Meeting draws representatives of 22 countries, November | 52 |
| | | Mining follows the quadrant plan, September | 40 |
| | | Monterey Coal Co., Carlinville, Macoupin County, Ill., June | 38, 40, 44, 47 |
| | | Monterey No. 1 - a modern mine, June | 38 |
| | | Mortimer, Niland B. | |
| | | - Systems engineering - a major factor in the 70's, April | 90 |
| | | Mountaineer Coal Co., Wheelstone Portal Treatment Plant, Consol No. 20 Mine, Mannington, W. Va., October | 44 |
| | | Multiple-head augers solve thin seam production problem, February | 40 |
| | | N | |
| | | NACCO Mining Co., sub. of North American Coal Corp., Powhatan No. 6 Mine, near Alledonia, Belmont County, Ohio, September | 40, 42, 46 |
| | | NACCO Mining's Powhatan No. 6, September | 40 |
| | | National Coal Association | |
| | | - Coal: Key to the energy crisis, September | 54 |
| | | National Safety Council | |
| | | - 59th Annual Safety Congress meets in Chicago, January | 64 |
| | | New life for an old belt, June | 52 |
| | | Nickerson, Floyd H. | |
| | | - Elk Creek No. 19 mines two seams, September | 50 |
| | | - Flat top stripping in hill country, April | 86 |
| | | - Fourteen units will mine 11,000 tpd, September | 42 |
| | | - Jig plant features twin circuits, September | 46 |
| | | - "Kelly Giant" rides again, The, March | 50 |
| | | - Multiple-head augers solve thin seam production problem, February | 40 |
| | | - NACCO Mining's Powhatan No. 6, September | 40 |
| | | - Oak Park's output goes to industry, August | 42 |
| | | - Reverse mining in Kentucky hills, June | 49 |
| | | - Scattered stripping operations served by single-drill unit, July | 44 |
| | | O | |
| | | Oak Park's output goes to industry, August | 42 |
| | | One solution to the dead coal storage problem, February | 47 |
| | | Only a matter of time (Comment), October | 19 |
| | | Our energy crisis - a national fuels policy, (Comment), February | 14 |
| | | Our energy crisis - after the year 2000, (Comment), March | 21 |
| | | Our energy crisis - the electrical power dilemma, (Comment), January | 36 |
| | | Overton, J. Allen, Jr. | |
| | | - What's ahead in strip mining legislation? July | 40 |

Here's Why You Get More TPH With Twin City Wire Screens

No matter what kind of equipment you use or what material you're working, you always get *better performance and lower cost* with Twin City Screen Cloth.

CHECK THESE 7 REASONS

1. Uniform openings throughout the entire screen produce more "up-to-spec" material.
2. Tight weaves . . . withstand vibration . . . won't separate . . . provide maximum wear . . . reduce downtime.
3. Abrasion resistant wire . . . high carbon spring steel (TCA) . . . oil tempered spring steel (TCOT) . . . stainless steel (TCSS).
4. All opening and wire sizes . . . square and oblong openings from 10" to 10 mesh . . . from 1" rod to #21 wire.
5. Perfect fit . . . assures proper tension of screens.
6. Less first cost . . . less maintenance cost.
7. Immediate delivery on stock sizes . . . one week to 10 days on all other sizes.

FREE
easy-to-use
CALCULATOR

Shows recommended wire diameter for all size openings.
